

Welcome to Urology Centers of Alabama where our team of skilled urologists and urogynecologists are committed to providing our patients with high-quality, personalized medical care in our state-of-the-art facilities. Our physicians specialize in the comprehensive treatment of urological disorders using the most advanced technology available.

For over 60 years, Urology Centers of Alabama has been committed to providing the highest quality medical services in a compassionate and caring environment. With 27 skilled urologists, two urogynecologists, two radiation oncologist, two medical oncologist, one pathologist, a team of physicians assistants and nurse practitioners and over 225 employees, the practice has earned a well-deserved reputation for excellence in the Birmingham medical community.

Cutting Edge Technologies and Care

The Urology Centers physicians are leading the way in cutting-edge medical procedures such as minimally invasive robotic surgery, endoscopic and laser surgery and radioactive seed implantation for prostate cancer. The practice also plays an integral role in the field of urology through research studies conducted at the facility. Urology Centers of Alabama is committed to investigating the effectiveness of all treatment options, including new drugs and procedures that hold great promise.

Why choose Urology Centers of Alabama?

- We are located in Homewood, away from the hectic downtown Birmingham area
- We are a local, physician owned practice.
- We are more than just urology, we have a mens health and women's center, a comprehensive cancer center, and 17 locations across Alabama.
- BCBS Health Insurance.
- Generous time off and paid holidays.

What you will do:

- This is mostly a surgical position in that you will be in the OR operating one of our robotic surgical machines to perform the following types of surgical procedures that includes, but is not limited to:
 - Robotic prostatectomy
 - Robotic nephrectomy
 - Inflatable penile prosthesis
 - Robotic sacrocolopexy
 - Robotic cystectomy
- You may be required to see hospital consults and make hospital rounds, or visit patients scheduled for surgery in the clinic setting
 - Under the direction of a physician, make diagnosis of patients and institute a plan of therapy by writing comprehensive medical status reports, ordering labs and medications as needed
 - Be able to provide instructions on plan of care and therapy for a variety of urological conditions
- No weekend or nightly call!

- **What type of experience do I need?**
- Must be licensed and in good standing in the State of Alabama as a Physicians Assistant (PA) or a Certified Registered Nurse Practitioner (CRNP)
- Surgical robotic experience is strongly preferred.
- Drawing of arterial, venous, or peripheral blood
- Catheterization techniques
- Wound care and dressings
- Types of procedures you may conduct or assist with
 - Drain Removals
 - Plaque injections
 - Penile injections
 - Administration of subcutaneous local anesthesia
 - Incision and drainage of superficial infections
